

2025 SUPER BOWL PROSPECTS ANALYSIS				
A look at the one to three year window of Super Bowl prospects of each team as of June, 2025.				
SUPERBOWL CONTENDER: CEAM OF THE CROP		COACH	QB	TEAM
Baltimore	Top 3 coach Harbaugh faces more roster turnover including his cut HOF kicker Tucker, but he has improved receivers & running game; dangerous if QB Jackson healthy. A top pick.	A+	A+	A-
Buffalo	Well coached & loaded up on DL weakness in the Draft to bolster weak run D & improving pass rush; QB Allen lacks elite weapons; Bills & Ravens are our AFC favorites.	A	A+	A-
Detroit	Lions lose coaches Johnson/Glenn & C Ragnow; loaded offense; Goff may have reached his peak; Lions added D for another run; need Campbell to make practical game calls.	B+	B+	B+
Green Bay	QB Love entered top 10 in '24 where the defense was quietly good and is ranked #8 (Sportsnaut) for '25; quality, young roster; massive WR room; o-line questions remain.	A	B	B+
Kansas City	Top quality coach & QB overcame the weakened WR/o-line situations we predicted last year but it cost them in the Super Bowl; still weak o-tackles; 7 straight AFC Champ games.	A+	A+	A-
LA Rams	Love this well coached team; rookies Fiske & Verse filled DT Donald's shoes admirably; WR Adams a stud; #24 run game an issue; we bet Bills & Rams as exact SB teams at 53-1.	A	A	B+
LA Chargers	Harbaugh won 11 games & has 2nd year improvement history; massive '24 defensive turnaround at #1 in scoring; WR's must improve; Herbert underrated; a good SB bet, 25-1.	A+	A	B
Philadelphia	Quality roster took usual SB winner losses, but quality reloads; top NFL GM; Fangio proved us right with our Eagles/Chiefs SB exacta (31-1); we bet them with the Bills in '25 at 17-1.	C	B+	A+
San Francisco	Lost about half of their 24 free agents, most on D where they drafted heavily; coming off injury plagued '24; don't underestimate them with #1 easiest league schedule.	A-	B+	B
SUPERBOWL SLEEPER: COULD SURPRISE IN 2025		COACH	QB	TEAM
Cincinnati	Top QB & WR's bode well for the passing game but we are sellers based on cap issues causing weak running game, o-line & defense; championships are built in the trenches.	B-	A+	C
Denver	Payton managed cap issues & flyer QB Bo Nix well; defense rated #1 by most analysts; the offensive line is top-10 & the WR's are decent. Good '26 SB prospect with Nix progress.	A	B-	A
Houston	A 2-time, 10-win team overhauls it's o-line (including All-Pro OT Tunsil) in risky move; Stroud battles '24 sophomore slump; top five D should carry them in a weak division.	B	B-	B-
Tampa Bay	QB Mayfield finds groove w/ team +/- 6th in '24 point differential; quality vet/young WR's; should miss Cohen led offense; D has holes; recent playoff tough out, could make noise.	C	A-	B-
Washington	A good coach & promising star QB are a great start; Samuel compliments McLauren; o-line improves with OT Tunsil trade; 8-3 in 1-score games won't likely reoccur.	B+	A	B-
HAS DECENT PIECES/COULD RISE: 1-YEAR AWAY		COACH	QB	TEAM
Arizona	Murray was a borderline top-10 QB in '24 where rookie Harrison good but must progress; need a #2 reciever to compliment TE McBride; many defensive adds in offseason.	B-	B+	B-
Chicago	Masterful offseason upgrades of coach (Johnson) o-line & running game for QB Williams; we love the prospects for the Bears but fear the division & 6th toughest schedule.	Inc. *	C-	B-
Dallas	Previous top tier offense struggles with o-line change & no run game; defense has decent talent w/ Parsons & secondary; we are not fans of new coach choice of Schottenheimer.	Inc. *	B	B-
Las Vegas	Coach Carroll & QB Smith big uprades; has a young RB & defensive pieces; '24 turnovers & other bad luck has us more positive for '25; more talent needed & tough division.	A	B-	C
Miami	Recently talented team now listing; o-line an issue despite top weapons & serviceable QB Tua; defense ever-changing despite talent; this team seems lost under this coach.	D+	B	C
Minnesota	Well coached team with O'Connell; great offensive line & weapons; top-5 defense potential focused on front-7; McCarthy at QB a massive question & high risk.	A	D-	B+
New England	QB Mayo seems like real deal; coach Vrabel will elevate; top end offseason free agent spending spree and very good draft bodes well for 2026 and beyond.	A	B-	C+
Pittsburgh	Good team with QB issues; we see too much front-7 & running game emphasis for today's passing league which we don't understand. We are sellers based on their philosophy.	A	D-	B-
RETOOLING: 2 YEARS AWAY		COACH	QB	TEAM

Atlanta	QB Pennix & RB Robinson behind a top-7 o-line brings hope; but the projected #28 defense still can't pass rush or stop the run even with a defensive coach; work to be done.	C-	C-	B-
Carolina	Off 2, then 5 win ('25, -193 +/-) seasons the main hope is decent o-line play & QB Young's '24 turnaround; RB Hubbard a pleasant surprise but Sportsnaut's #30 '25 D won't help.	D+	C-	D+
Cleveland	DC Schwartz defense delivered as we predicted & adds DT Graham to Sportsnauts #12 defense for '25; the once top-5 o-line & WR's have regressed; QB room is packed.	B+	D+	C-
Indianapolis	QB Richardson not NFL level, Jones will start by week 6 with average WR's; oft-injured RB Taylor has diminishing o-line; limited promise here, albeit mediocre D should improve.	D+	D	C
Jacksonville	New coach/run game guru Cohen fixed Mayfield; some o-line upgrades; 3-10 in 1 score games & -6 fumble ratio can revert; we bet them over 7 1/2 with 6th easiest schedule.	Inc. *	D+	C-
New Orleans	New unproven coach, all inexperienced QB's, cap issues and diminishing roster make them a favorite for worst 2025 record. Aging & departed stars mean a full rebuild here.	Inc. *	D-	D
NY Jets	Talented D went south after Coach Salah fired in '24; ever changing o-line has some improvement but new QB Fields has his hands full despite WR Wilson stardom.	Inc. *	D	C+
NY Giants	Burns/Lawrence/Thibodeaux & rookie Carter form top front 7 which must improve run D; secondary improved; unsettled QB room/toughest schedule doom 2025.	C	D+	C-
Seattle	Coach MacDonald has been good, achieving a 10-win season & division crown tie; Sportsnaut's #7 defense can't save Darnold behind weak o-line & #30 2024 run game.	B-	D-	C-
Tennessee	Horrorific o-line & overall roster gets talent infusion w/ rookie QB Ward & second tier free agents; this will take time for 2nd year coach Callahan nonetheless, even is weak division.	D	C-	D-

#### TOTAL REBUILD: 3 YEARS AWAY

None	After three - 3 to 4 win seasons the Texans won 10 in 2023 and were 16-1 to win the Super bowl in 2024 which illustrates no team is more that 2 years away anymore as your prospects are as good as your starting quarterback.
------	--

KEY	
* Inc.	Coaching grade incomplete due to lack of history/track record, though we made projections for first year QB's.
